

Financial analysis in KNIME

CASE STUDY: FINANCIAL ANALYSIS IN KNIME

Andrew Logan
Data Scientist, 4&8 Ltd

A portrait of a middle-aged man with short brown hair and blue eyes. He is smiling slightly and looking towards the camera. He is wearing a dark blue or black jacket over a red and white checkered shirt. The background is a plain, light gray.

On the case

Business case

- You're a financial analyst for the London Fire Brigade

On the case

Business case

- You're a financial analyst for the London Fire Brigade
- 3 months purchase data
- View overall trends
- View VAT data
- Export detailed aggregations (for re-use and archive)

On the case

Business case

- You're a financial analyst for the London Fire Brigade
- 3 months purchase data
- View overall trends
- View VAT data
- Export detailed aggregations for re-use and archive

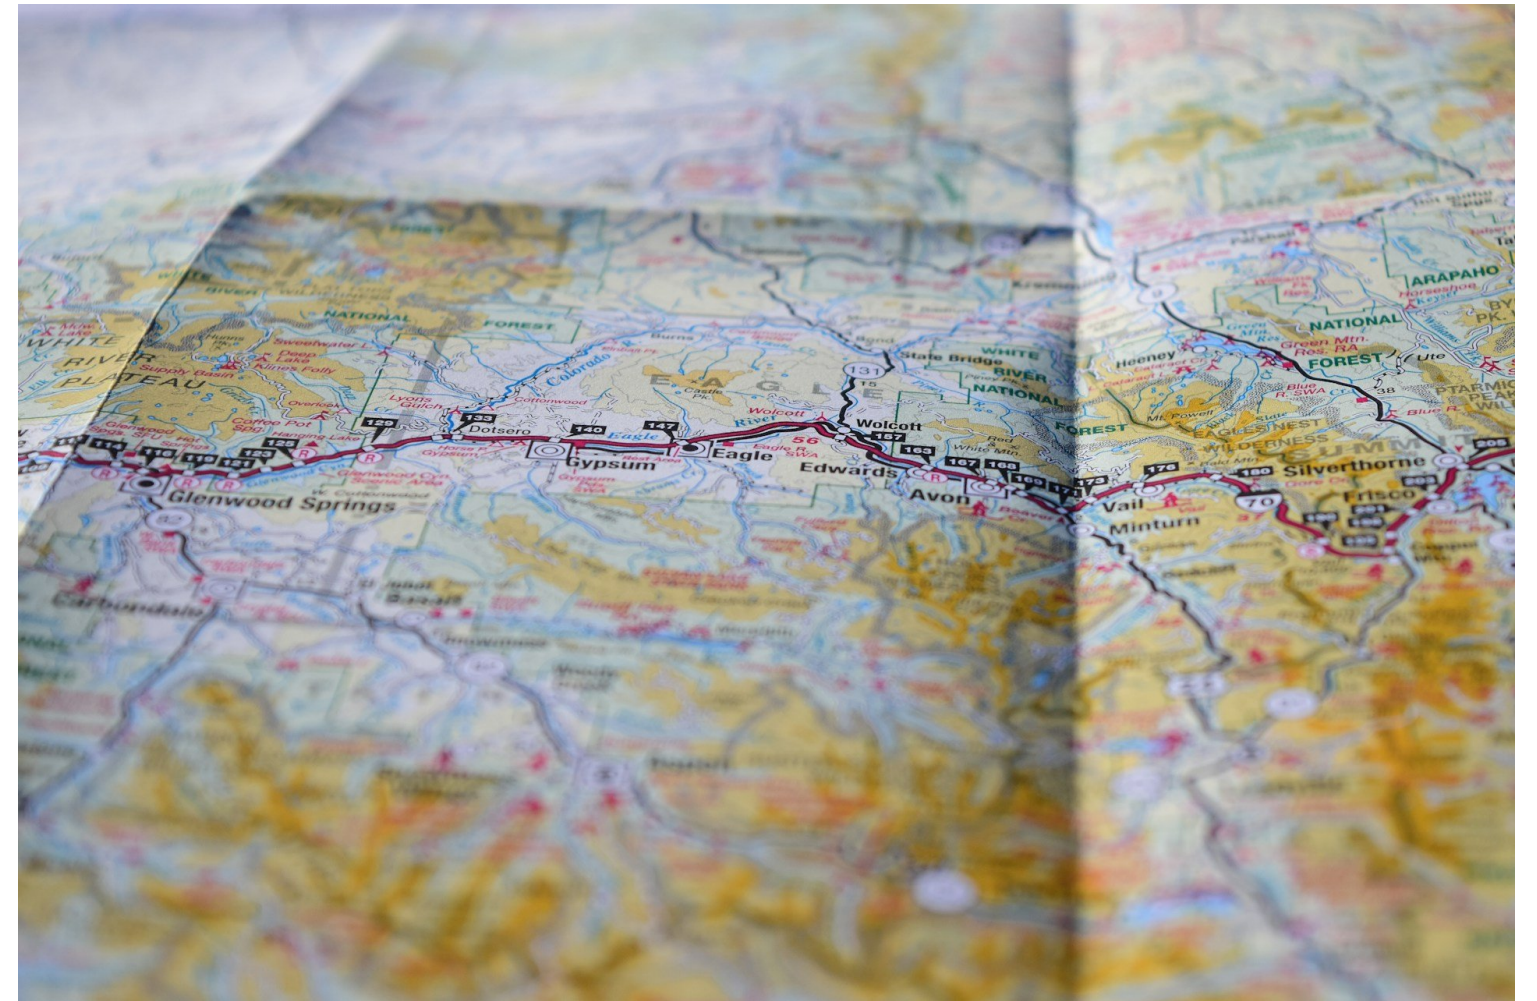

Considerations

- Re-usable by non-technical users
- Easy to understand automated process

What's the plan?

How do we get to where we want to go?

- Plan a route
- Use the business case as the destination
- Plan out the process steps
- Use annotations as signposts
- Think of metanodes as towns
