DATA TRANSFORMATION IN KNIME

Mahantesh Pattadkal

Sr. Data Scientist

Data transformation process

Online orders data

Order ID	Customer	Product	Sales Price	COGS
1	Bob	Chair	\$100	\$80
2	John	Wardrobe	\$200	\$150
.	.	.	.	.

Conditional statements

Operators

Operator	Meaning
>	Greater than
<	Less than
=	Equal to
>=	Greater than equal
<=	Less than equal

Discount%

Created using Conditional Statement

Expression

Order ID	Qty	Discount%
1	20	5
2	50	10
.	.	.

Expression-based transformation

Compute the profit

Data integration

Most profitable orders

Sort by Profit

Order ID	Sales price	COGS	Profit
2	\$200	\$150	\$50
1	\$100	\$80	\$20
.	.	.	.
.	.	.	.

Most Profitable
